## **DETAILED ACTION**

### ***Specification***

1. The disclosure is objected to because of the following informalities: Paragraph 9, line 13 contains the phrase "deviates from". It appears this should be "exceeds".

Appropriate correction is required.

### ***Drawings***

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the connection between the regulator R and one of the outputs of power supply component SB3 or a further power supply component (R connected to at least three power supply components), as claimed in claims 14 and 23, and the emergency shutdown device of claim 12, must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering

of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Objections***

3. Claims 7 and 13 are objected to because of the following informalities: Claim 7, line 5 contains the phrase "to power supply". It appears this should be "to the power supply". Claim 7, line 6 contains the phrase "operating the". It appears this should be "operation of the". Claim 13, line 2 contains the phrase "amount of output voltage". It appears this should be "output voltage". Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 9 and 11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

6. Regarding claims 9 and 11, the phrase "will substantially not exceed" renders the claims indefinite because it is unclear by how much the maximum voltage differential may exceed the reference voltage value or specified maximum voltage value and still be within the scope of the claims.

***Allowable Subject Matter***

7. Claims 8, 10, 12, and 14-23 allowed.
8. Claims 7 and 13 would be allowable if rewritten to overcome the objection(s) set forth in this Office Action.
9. Claims 9 and 11 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office Action and to include all of the limitations of the base claim and any intervening claims.
10. The following is an examiner's statement of reasons for allowance:

Claims 15-23 are allowed, and claims 7-14 contain allowable subject matter, because none of the prior art of record discloses or suggests the use of a difference between the voltage outputs of two power supply components as the control parameter for a regulating circuit, in combination with the remaining claimed features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
